

INDUSTRIAL LABELS, NAMEPLATES & BRANDING SOLUTIONS

FOR OEM

RANGVISHWA[®]

touching the future >>

Rangvishwa partners with OEM manufacturers to develop high-performance customize Industrial Labels, Branding Components, Graphic Overlays and Identification Solutions that enhance product appearance, ensure traceability and withstand demanding industrial environments.

OUR PRODUCT RANGE

1. Branding Logos & Nameplates

Make Your Brand Stand Out : Premium branding components designed to enhance product appearance and reinforce brand identity. Available in Metallic, Brushed, Embossed, Dome, and Custom-finished options for a high-end look and lasting durability.

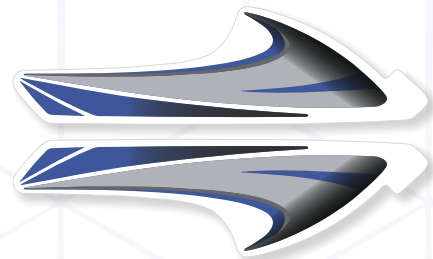

Applications: Electronic Equipment, Medical Devices, Consumer Appliances, Industrial Products

2. Decorative Strips & Fascia Components

Enhancing Product Aesthetics : Custom decorative strips and fascia components that add a premium finish to products while improving visual appeal and user perception. Available in various surface finishes (Gloss / Matt / Fine), colors, and materials like polyester, polycarbonate & vinyl films.

Applications: Hard Luggage, Home Appliances, Industrial Equipment, Electronic Devices

3. Graphic Overlays

The Face of Your Product : Durable and visually appealing graphic overlays designed to provide clear user instructions, branding, and interface protection. Available with embossing, display windows, and special surface coatings. Also available in various surface finishes (Gloss / Matt / Fine), colors, and materials like polyester, polycarbonate and PVC films.

Applications: Control Panels, Medical Devices, Test & Measurement Equipment, Industrial Applications

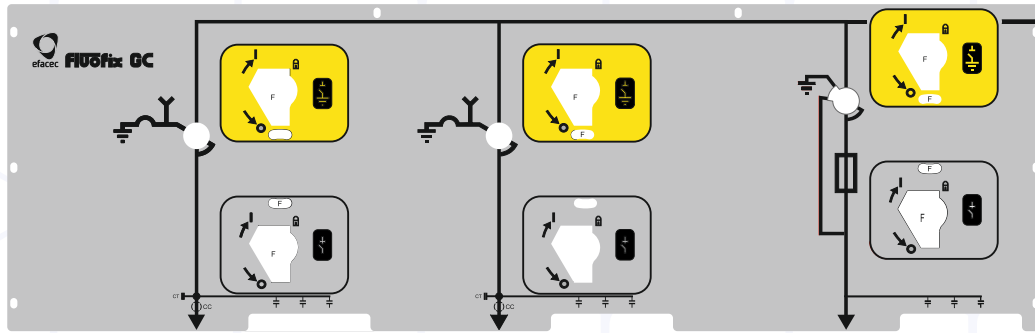

OUR PRODUCT RANGE

4. Mimic Diagrams

Clear Visual Representation for Critical Operations : Precision-printed mimic diagrams that simplify system monitoring and operation through clear graphical representation. Designed for long-term durability in demanding industrial environments. Available in various surface finishes (Gloss / Matt / Fine), colors, and materials like polyester and polycarbonate films.

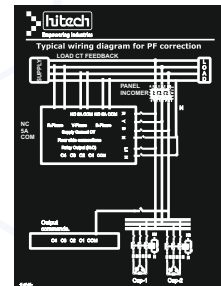

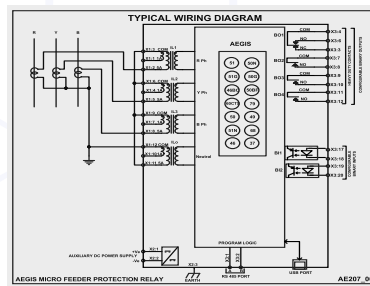

Applications: Electrical Panels, Power Distribution Systems, Control Rooms, Process Industries

5. Instructions & Wiring Diagram Labels

Instruction & Wiring Diagram Labels provide clear operational guidance and accurate electrical connection information. Designed for long-lasting readability, durability, and resistance to harsh industrial environments.

Applications: Industrial Equipment, Electrical Panels, OEM Products, Automation Systems

6. Warning & Signage Labels

Communicating Safety & Information Effectively : Durable labels designed to provide critical safety warnings, operational instructions, and compliance information. Manufactured for excellent readability and long service life.

Applications: Machinery, Electrical Equipment, Medical Devices, Industrial Systems

Why Leading OEMs Choose Rangvishwa?

- 18+ Years of Industry Experience
- Advanced Screen & Digital Printing Infrastructure
- In-house Graphic, Artwork & Circuit Design Expertise
- Trusted OEM Development & Procurement Partner
- Rapid Prototyping & Fast Product Development
- Material Selection & Engineering Consultation
- Precision Manufacturing with Consistent Quality
- On-Time Delivery Commitment
